THE WHITE HOUSE

WASHINGTON

June 19, 1979

MEMORANDUM FOR:

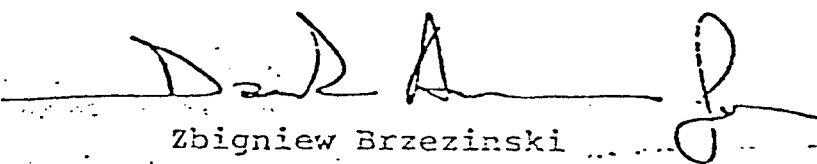

THE SECRETARY OF STATE
THE SECRETARY OF DEFENSE
THE ATTORNEY GENERAL
THE DIRECTOR OF CENTRAL INTELLIGENCE
THE DIRECTOR, FEDERAL BUREAU OF INVESTIGATION

SUBJECT: Establishment of a Central File on
Hostile Intelligence Services HUMINT
Targeting Against the United States (S)

The Special Coordination Committee for Counterintelligence (SCC/CI) on November 8, 1978, approved an SCC/CI Working Group (CIWG) proposal for the establishment of a small, working-level FBI-DOD-CIA ad hoc group to study and make recommendations regarding possible central data bases. Based on the group's recommendations, the following activities should be undertaken. (S)

A central file should be created to contain all U.S. information (HUMINT and SIGINT) on hostile intelligence service HUMINT targeting against the U.S. The FBI will develop and maintain the file as a service of common concern. Input to and output from the file will follow procedures issued by the FBI after consultation with concerned agencies, who will furnish the FBI with the information for the file. All officials concerned with the central file system are to remain sensitive to the point that the purpose of the file is to document hostile intelligence activities and that it has not been established to compile dossiers on U.S. citizens. (S)

The DCI will prepare, maintain and periodically issue a comprehensive summary inventory describing information on foreign intelligence threats available in Intelligence Community offices. This will be an adjunct to the responsibilities previously assigned to the DCI for (a) the maintenance of a small inter-agency national multidisciplinary CI analysis center, and (b) preparation and periodic issuance of a National CI Production Register of CI national-level and/or general utility CI studies.
